

Advance Training Program **“Qualitative analysis by HPLC/PDA and its data interpretation”**

(Duration, 5 Days)

HPLC/PDA combined power of “Separation & Detection”

Organized by
Sophisticated Analytical Instrument Facility & Research Division
CSIR-Central Drug Research Institute, Lucknow

Facility, Supported by
Department of Science & Technology
(Govt. of India)

Objective of training program

The proposed training program will provide an opportunity to experience the HPLC techniques and initiate lively discussion among research scientists, academicians and young researchers to share their knowledge in the frontier areas of chemical sciences and HPLC data analysis. The beginners will get a chance to familiarize themselves with HPLC/PDA techniques and gain confidence by observing their applications and data interpretation as done in real situation. This training will focus on the chromatography of small molecules analysis and method development. **Total number of participants will be maximum three and decided based on their area of interest, pre booked slot between Monday to Friday and availability of accommodation at CSIR-CDRI, Guest House.**

Topics to be covered

Basics of HPLC

Basic Instrumentation of HPLC/PDA

Applications of HPLC and their data interpretation.

Demonstration on instrument (Lab. session) followed by discussion.

Exercise on mass spectrum data analysis. Examination and result discussion.
